PROFILE SUMMARY

Innovative Full Stack Developer with over 5 years of industry experience, specializing in crafting dynamic solutions using JavaScript, React.js, Node.js, and robust database management systems. Renowned for delivering scalable, high-performance web applications that enhance user experiences and exceed business objectives. Demonstrated a unique blend of technical proficiency, creative problem-solving, and effective project leadership, ensuring seamless translation of complex project requirements into successful software deployments.

WORK EXPERIENCE

Feb 2023 – Present — **Senior Software Engineer | Softura Private Ltd, Ahmedabad, Gujarat**

- Developing dynamic web applications using React.js to meet evolving technical and business needs
- Building REST APIs with Node.js while ensuring adherence to standard coding practices and enhancing system scalability
- Optimizing application performance through comprehensive troubleshooting and proactive engagement in research and development for more efficient solutions
- Collaborating with project management teams to ensure seamless integration and functionality that aligns with client expectations and project timelines

Project

- **Vault Admin Portal:** Leading a team to develop a robust admin portal that integrates DynamoDB and PostgreSQL, ensuring 100% fulfillment of project requirements and client satisfaction

July 2019 – Jan 2023 — **Software Engineer | Scaletech Solutions, Ahmedabad, Gujarat**

- Developed and maintained responsive web applications with React.js, effectively addressing both technical and business requirements
- Implemented Redux for efficient state management, optimizing application performance through code refactoring
- Integrated front-end interfaces with backend services using Node.js, promoting best practices in responsive design and accessibility standards
- Participated actively in code reviews, contributing to a culture of excellence and continuous improvement within the development team

Projects

- **BETFAN - Sports Betting PWA:** Engineered the authentication feature and mentored junior developers to optimize component performance for peak efficiency
- **Streaming Platform WebApp:** Managed client requirements to develop a highly responsive web application, employing React and Node.js with Redux for state management
- **Online Video Editor:** Translated complex requirements into effective modules, significantly enhancing performance and user interface design

EDUCATION

2015 – 2019 — **Bachelor of Engineering (Computer Science) |** Gandhinagar Institute of Technology

SKILL SET

Functional — Web Development | Database Integration | API Design and Implementation | Code Optimization | Problem Solving | Project Management | Team Collaboration and Leadership | Continuous Learning and Adaptation

Technical Skills
Programming: JavaScript, TypeScript
Framework & Libraries: ReactJS, Node, ExpressJS, Kafka, GraphQL, HTML, SCSS, Redux, Saga
Databases: DynamoDB (AWS), PostgreSQL
Cloud: Docker, AWS (S3), GitHub, CI/CD

PERSONAL SKILLS

Mother Tongue — Hindi
